# Introductory

---

The present volume constitutes the 1932 edition of Henderson's Directory of Regina. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

## THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 37 to 95 and contains data concerning City, Provincial and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

## THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE is embraced in pages 96 to 202; in this feature the names of all streets and avenues are arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

## THE BUYERS' GUIDE

THE ADVERTISING occupies pages 1 to 36; this section of the Directory printed on colored paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the City Directory enjoys in many and varied lines of trade.

## THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 203 to 560.

## THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 561 to 684 and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

## ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Regina for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully, The Publishers

# City of Regina

Regina, Capital of the Province of Saskatchewan, is situated 357 miles west of Winnipeg on the Canadian Pacific Railway main trans-continental line and in the exact centre of population for Western Canada. Incorporated as a city in 1903, with a population of 3,000, Regina has grown solidly and steadily until recognized today as the fourteenth city in size in the Dominion of Canada.

The City was named as the first train arrived at 9 o'clock, August 23, 1882, by Princess Louise, Duchess of Argyll, wife of the then Governor General of Canada, in honor of Queen Victoria.

The first settlers of the district arrived in May, 1882, and subsequently a canvas town sprang up where the trestle bridge carries the main track of the C.P.R. across Wascana Creek, about a mile west of the centre of the City.

The selection of the townsite of Regina was arranged jointly by the Government and the C.P.R. Company. Early in 1883 an officer of the North-West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the Railway Company to enter into partnership regarding certain townsites, one of which was to be the seat of Government for the North-West Territories. Acting under this agreement the General Manager of the Railway Company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz: 19 and 30, township 17, range 19, and 24 and 25, township 17, range 20, west of the second meridian, to constitute the Townsite of Regina. These selections were subsequently vested in Messrs. Osler, Scarth, Smith and Angus, trustees to administer and divide the net proceeds between the Federal Government and the Railway Company.

The arrangement for the control of the townsite by the Townsite Trustees was terminated by Order in Council of 29th December, 1900, and by further Order in Council of 6th April, 1903, the granting to the Municipality of the lots in the Townsite which had reverted to the Crown was authorized.

Up to March 7, 1883, when the Roundhouse was burned, Regina had been a Divisional Point on the C.P.R., but after that date the headquarters of the Division was removed to Moose Jaw.

By Order in Council, 27th March, 1883, the Town of Regina was declared to be the seat of Government of the North-West Territories, in place of Battleford.

In the Spring of 1883, the first school was opened in the town. The original Dominion Lands Office, a low frame building was brought up on a flat car from Troy (afterwards called Qu'Appelle) and placed at the corner of Broad Street and Victoria Avenue.

A public meeting was held in April, 1883, to discuss the matter of the site of the proposed post office, the site finally selected being on Victoria Avenue.

On May 13, 1883, Lieutenant Governor and Mrs. Dewdney arrived to take up residence in Regina. They were met on arrival by a large number of citizens, and His Honour was presented with an address.

Regina was made a Money Order Point on July 1, 1883. A public meeting was held and a citizens' committee formed to carry on the business of the town. Mr. John Secord, Barrister, was appointed secretary, and Sub-Committees were appointed on Finance, Sanitation, Fire and Water and Miscellaneous Affairs. A committee was also appointed to draft a charter of incorporation, and the Finance Committee were instructed to collect \$2,000 by public subscription for public works.

Elections for the North-West Council were held in August, 1883, Mr. William White was selected for the Regina district. The Fifth Council of the North-West Territories was opened by Lieutenant Governor Dewdney on August 22, 1883. A bill entitled, "An Ordinance Respecting Municipalities," was introduced in the North-West Council on September 12, 1883, and a public meeting of citizens was called to discuss the matter of incorporation.

In October, 1883, a lot on Eleventh Avenue, near Rose Street, was sold for \$275. At this time farm lands in the vicinity of the City were worth about \$5 per acre.

On Monday, October 8, the Civic Council met and took final steps to comply with the Ordinance to provide Municipal Government. The Government Buildings, Council Chambers and Indian Office on Dewdney Street were completed in October. The first telephones, privately owned, were introduced into the town at this time.

Up to December, 1883, Regina had two chartered banks, the Bank of Montreal and the Merchants Bank. It was found, however, that there was not enough business for two banks, and the Merchants banks was therefore withdrawn.

Nominations for the first Municipal Elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs and D. L. Scott, the last named, who later became Judge of the Supreme Court of Alberta, being the first mayor.

Regina was incorporated as a City on June 19, 1903, under Chapter 28 of the Ordinance of the North-West Territories, 1903-04, and became the Capital and Seat of Government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands on its own grounds of about 160 acres south of Wascana Lake and within the City Limits. It has well been said that there are no Parliament Buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan Capital.

### **CITY GOVERNMENT**

The government of the City is vested in a Council. It is what is regarded as a modified form of Commission Government with the Council as the Legislative body, and the City Commissioners as the

 20. Provincial Normal School  
 21. Regina College

Executive. The powers of both are contained in "The City Act." The Council consists of the Mayor and ten Aldermen. Both are elected by a vote of the City at large. The mayor is elected annually, while the Aldermen hold office for two years. The members of the Collegiate Institute, Public and Separate School Boards are elected at the same time and in the same manner as the Aldermen.

### **FINANCIAL CENTRE**

Regina is unquestionably the financial centre of the province and its development in this respect is remarkable. Seven of the leading Canadian Chartered Banks have eleven branches in the city. The Bank Clearing House Association was established and commenced business October 1, 1909. The 1931 Clearings were \$192,876,885.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta, the City being the headquarters of Western Canada for this class of business. As an indication of this it may be said that the authorization granted by the Local Government Board for the issue of Municipal, School and Rural Telephone Debentures in Saskatchewan alone for 1930 amounted to \$5,914,192.30.

### **RAILWAY CENTRE**

Fourteen rail lines radiate in all directions from the city, serving 640 towns and villages in the main trading area over 4,303 miles of trackage. Freight and express shipments from the city can reach practically every point in Western Canada in twenty-four hours.

### **DISTRIBUTING POINT**

Regina offers unrivalled facilities for the distribution of merchandise throughout Western Canada. The city is the largest distributing centre of farm machinery in the world, business in this line having reached \$35,000,000. in one year. 214 wholesale concerns are situated on trackage in the city's industrial area.

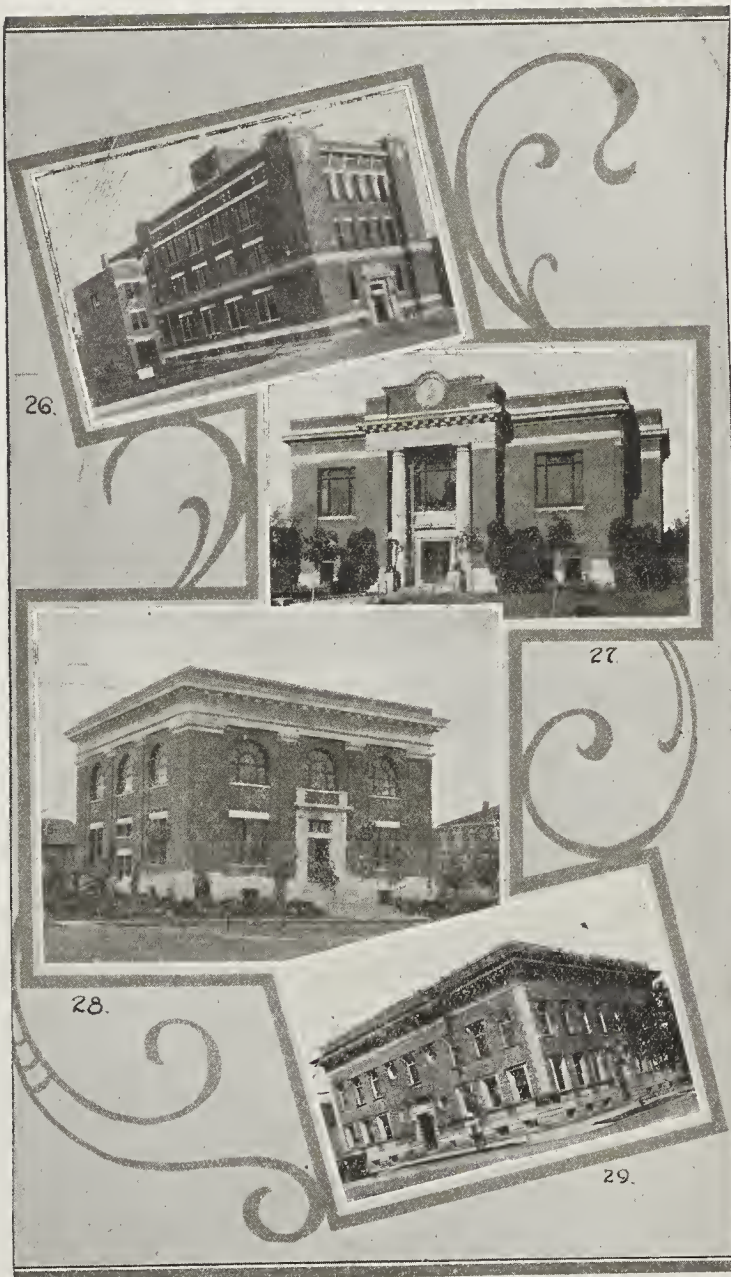

### **MUNICIPALLY OWNED INDUSTRIAL SITES**

Regina occupies a unique advantage for industrial development in that it owns a large portion of its original townsite, 300 acres of which has been set aside for a model industrial area. This property is only three blocks from the downtown business and financial section and is exclusively reserved for wholesale and manufacturing premises. The area is paved, and the property is served with spur trackage, sewer, water, power, walks and street railway. Its freight depots and unloading platforms are convenient to the entire area, while still about six miles of spur track frontage is available. Such control by the city prohibits speculation with industrial site property. Located in the city are 104 industries, 216 wholesale businesses and 653 principle retail outlets.

### **MUNICIPAL OWNERSHIP**

The City owns its own street railway, light and power and water systems. The number of passengers carried on the street railway during 1931 was 4,293,639 and earnings \$297,218.68. Earnings of the Power Plant were \$1,075,215.00 net and of the Waterworks for 1931 \$386,646.00.

Regina has an abundant supply of water for all purposes which possesses the distinctive feature of being the coldest supply at source of any on the North American Continent.

## **CENTRE OF GRAIN GROWING AREA**

Surrounding Regina is the finest grain growing district in the world. Saskatchewan is the greatest grain growing province in the Dominion and produces annually one half of the Canadian hard wheat crop. As producer of quality hard wheat Saskatchewan leads the world, having won the world's prize eleven times during the past sixteen years.

## **SASKATCHEWAN WHEAT POOL**

During its comparatively short history the Saskatchewan Wheat Pool has come to fill an important place in the commercial life of Western Canada. The world economic crisis has visited every industry—none more severely than agriculture, the basic industry of this country—but the future is awaited with confidence by the agricultural co-operative marketing movement of which this organization forms a part.

Saskatchewan Co-operative Wheat Producers Limited, to give it its official title, dates from June 26, 1924, when the required acreage was covered by Wheat Pool contracts. There are now approximately 82,000 members. The head office of this farmers' co-operative organization is at Regina.

During the first seven years of operations a total of over 737,000,000 bushels of wheat was marketed directly through the Saskatchewan Wheat Pool. At the beginning of the 1931-32 crop season, however, a modification in Pool policy came into effect as approved by the delegates, who recognized the imperative need of growers for a maximum amount of immediate cash for their grain in view of critically low prices for all agricultural produce. By the new policy, each Pool member is given the privilege of deciding the method by which he wishes his grain marketed, so that he may either deliver to a pool for wheat as in past years, or secure the open market price. This plan is being continued during the crop year 1932-33.

In its first six years' operations Saskatchewan Pool Elevators Limited, which was incorporated in February 1925 as a subsidiary of the Saskatchewan Wheat Pool, handled a total of 544,000,000 bushels of all grains. The number of country elevators in the Pool Elevator system has increased from 89 in its first year to 1066 for the crop season 1931-32. This string of elevators constitutes the world's largest grain elevator system and it is grower owned and controlled. In addition, the organization operates six large terminal elevators on the Great Lakes, of which four are owned and two leased. The total capacity of all elevators operated by this farmers' organization, country and terminal, is 62,500,000 bushels.

During the present crop season (1931-32) Saskatchewan Pool Elevators has continued to handle a very large proportion of the grain marketed in this Province.

## **LIVE STOCK**

While Saskatchewan has always been considered the Premier Grain Growing Province in the Dominion there is abundant evidence that she will, in the not distant future, occupy an equally outstanding position in the realm of livestock.

At the Royal Winter Fair, Toronto, and at the International Exposition, Chicago, the high quality of our Saskatchewan livestock has been demonstrated over a long period of years.

In 1931, at the Toronto Royal, Saskatchewan livestock exhibits won thirteen Championships, ten Reserve Championships, twenty-eight first prizes and sixty-three other prizes. An outstanding achievement was winning three Grand Championships in draft horses and four Reserve Grand Championships. Saskatchewan maintains, with ease, its position as the leading horse breeding province in the Dominion.

At the 1931 International Live Stock Exposition, Chicago, a Grand Champion, a Senior Champion, a Reserve Grand Champion, a Junior Champion, a Reserve Junior Champion, Six First prizes, a Second and a Third were awarded to Saskatchewan entries.

An increase is shown in the cattle population of the province, and considerable improvement is being brought about by Pure Bred Sire Areas and the use of better bulls.

In sheep, in swine and in poultry every effort is being made to improve the quality and encouraging results are being obtained. This is evidenced by the fact that in swine, a Saskatchewan Barrow was successful in winning the Grand Championship at "The Royal Winter Fair" in 1930, the first occasion on which this coveted award has been secured by any province in Western Canada.

### **EDUCATIONAL CENTRE OF PROVINCE**

From the educational and social points of view, the City also offers every advantage. The City has the Regina (United) College, St. Chad's (Anglican) College, Campion (Roman Catholic) College, and the Provincial Government Normal School, as well as a Lutheran College.

Besides this group of educational buildings there are 22 public and separate schools, 2 collegiate institutes and the Balfour Technical School opened in 1930 and one of the largest buildings of its kind in Western Canada. There are 69 churches, Y. M. C. A., Y. W. C. A., 2 public hospitals and several private nursing homes, a public library with 4 branches and 6 commercial schools.

Contributed to the City by one of the earliest residents, Mr. F. N. Darke, the Darke Building for Music and Arts affords a facility for large gatherings seldom found in much larger centres.

### **CENTRE FOR THE TOURIST TREK**

Tourists going north or south or east or west find in Regina a charm and gaiety to match the mood of holiday and to lend a pleasant interlude to any trip.

Not only does the "Queen City of the Plains" have much of interest, beauty and historical value to give the visitor, but it offers the nearest centre from which roads lead off to the wonderland of Saskatchewan, into the hills, the lakes, by tree-lined roads, into the glory of the pine-clad north.

To reach this city of the plains, and Capital of the Province you travel through a fascinating country. A land of thrilling spaciousness, a boundless, rolling plain of fertile soil and far stretched fields of waving grain, the land of appealing beauty, of long days of sunshine, glorious colorful sunsets, clear air—a land that holds you in its spell and calls you back when you are gone.

Visitors will find a modern, bustling centre. There are excellent hotels, a most comfortable and charming tourist camp, splendid theatres, modern and extensive shopping facilities, beautiful drives, splendid golf courses, aquatic facilities, libraries and shady parks.

On the southern shore of Lake Wascana are the magnificent grounds and buildings of the Provincial Government. Visitors are always welcome and can visit the library and reading rooms during the day. A view of the city from the high dome over the Legislative Chambers is a sight amazing to those who know not of the distances of vision on the prairies. The gorgeous grounds invite a quiet walk amidst the cooling shade beside the lapping water of the lake.

In the library will be found many relics of great historical value, chief of which is the Confederation Table. Around this massive board sat Fathers of Confederation who brought the scattered parts of the settled East into the unity which today, as the Dominion of Canada, holds a place of high regard among all countries of the world.

One should not fail to visit the Natural History Museum in the Provincial Normal School on the other side of the lake. Here, in lifelike form, can be seen the birds and animals that make their homes upon the prairies.

Towards the edge of the city is the western headquarters of that famous force, the Royal Canadian Mounted Police. A short visit to the barracks grounds will show the older buildings from which the law was administered to a western nation, even into the Arctic.

Splendid highways and rail lines lead to the Capital from all directions, and to the guests who come by aeroplane one of the best airports in Canada is available.

Recreational and entertainment facilities afford a varied selection for pleasure under ideal surroundings, and short distances take the visitor to cooling sandy beaches on lakes in the historical Qu'Appelle Valley.

In this valley of many an Indian legend is the chain of lakes renowned for their great beauty and their joy to camper and to fisherman.

But little farther to the south and east are the beautiful Carlyle Lakes, a place to rest and greet the tourist who has entered from the United States. To the west are the vast lakes that draw the hunter in the Fall to the call of duck and goose that rest in thousands on their surfaces. On into the Cypress Hills where trout abounds, in wooded beauty of these foothills can the holidayer go to find a happiness and joy in care-free days and health and vigor in the brilliant sunshine.

Turning back into the north again one finds without a warning of its presence a wonder spot of the central part of Saskatchewan. Little Manitou Lake reposes near the town of Watrous and to the healing water of this "Carlsbad of America" come thousands every year. Health indeed has come to hundreds who seek the magic of its powers, just as did the Redman of the plains a hundred years ago, and thousands of the birds whom hunters guns have wounded or ailment overtaken.

On into the north through a fairyland of lakes and dells that trace their lacy pattern over miles of green terrain and into the pine and birch clad land of peace and beauty—into the great Prince Albert National Park—the playground of the West.

Little known and little heralded are the beauties of Saskatchewan. So vast in its boundaries that it could be a nation in itself. So rich in the resources of nature, that it has drawn the eyes of the continent

to its possibilities. So gorgeous in its varied beauties that those who have learned have stayed and wandered not from its entrancing rendezvous. So cheery and so genuine in its friendliness and greeting that hearts are warmed and burdens lifted with its charm.

Regina is the centre from which to start this intriguing exploration that will make your vacation a memorable one. Go forth as a vagabond adventurer and find your joy and peace and rest—return again to the city where your welcome never cools—and on to meet the labors of the day inspired, renewed and with memories and happiness that even time cannot remove.

Pax Vobiscum!

### CITY HALL

Regina's City Hall is situated at the corner of Eleventh Avenue and Hamilton Street. The funds for its erection were to a great extent provided by the sale of the townsite lands.

### HEADQUARTERS OF MILITARY DISTRICT

Regina is also the headquarters of Military District No. 12, which comprises the Province of Saskatchewan. This adds much to the business and social life of the City.

### MEETING OF COUNCIL

The first meeting of the Council in each year is held on the first Monday in January, except when that day is a public holiday, in which case the meeting takes place on the next subsequent day which is not a public holiday; and the Council of the previous year holds office until the new Council meets.

The subsequent regular meetings of Council are held on the first and third Tuesday in each month throughout the year at 7.30 p.m.

Special meetings of the Council may be called by the Mayor whenever he deems it expedient, and he may do so when requested in writing by a majority of the Council.

A majority of the whole Council constitute a quorum.

Chief Constable—M. J. Bruton

## STREET RAILWAY

The construction of the street railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911, and operation of cars on same was commenced July 29, 1911. At this time the system consisted of about six miles of track and six cars. Now there are 30 miles of track within the city limits, 14¾ miles of this being in pavement. The rolling stock is as follows: 48 Passenger Cars; 2 Sweepers; 30 Freight Cars; 1 Snow Plow; 1 Sweeper Plow; 1 Motor Haulage Car.

The total expenditure up to December 31, 1931, was \$2,449,665.54 of which \$508,220.32 was for cars and car equipment.

The operation statistics for the years 1930 and 1931 are as follows:

	1930	1931
Revenue Passengers Carried.....	5,946,184	4,293,639
Transfer Passengers Carried.....	967,332	789,620
Total Passengers .....	6,913,516	5,083,259
Passenger Car Miles .....	1,198,608	1,117,138
Other Car Miles .....	12,742	10,383
Total Car Miles .....	1,211,350	1,127,521
Passenger Revenue .....	\$371,856.70	\$271,995.64
Other Revenue .....	26,828.03	25,223.04
Total Revenue .....	398,684.73	297,218.68
Operation Expense .....	280,536.03	242,858.84
Operation Surplus .....	118,148.68	54,359.84
Fixed Charges .....	129,914.92	146,548.82
Depreciation .....	37,664.78	20,000.00
Surplus .....	49,431.02	112,188.98

The following fares were effected during the year:

Cash—10c.

Tickets—4 for 25c.

Tickets—8 for 25c. (Children over 5 and under 14 years)

Tickets—17 for \$1.00 (book)

All cars in regular service are operated by one man. This method of operation has proved practicable and make a big saving in operating expense.

About two-thirds of the revenue, other than passenger, is derived from freight haulage. The Department delivers all coal to the city and Provincial Government power houses, and handles garbage from a central transfer station to the civic incinerator.

## GENERATING PLANT

A modern generating plant, located on the shores of Wascana Lake, corner Winnipeg and Douglas Avenue, generates all power for the city. It has installed one 15,000 kw. C. A. Parsons, two 5,000 k.w. Curtis, one 3,000 and two 1,500 kw. Willans (Seimens) turbines, six 500 h.p. Babcock and Wilcox water tube boilers, fitted with Riley Underfeed Stokers and two 900 h.p. B and W Boilers with water cooled walls and pulverized fuel furnaces with pulverizing equipment to supply on the unit system. The plant has all modern labor saving devices and shows excellent economy in generating.

## SUBSTATIONS

No. 1 Plant is now employed as a substation and water pump plant, and for the supply of street railway power has installed one 1,200 k.v.a. Bruce Peebles motor converter and two 400 k.w. Seimens

generators, driven by one 1,200 h.p. Synchronous motor. It has also two motor driven water pumps, five million and seven million gallons capacity respectively. This Substation as well as No. 2 Substation on Elphinstone Street between Victoria Avenue and South Railway is being arranged as feed point from a 13.2 Kilowatt circuit through a bank of transformers 7,500 k.v.a. in each Substation. These two Substations are each capable of expansion to 15,000 k.v.a. capacity.

### **REFUSE DISPOSAL SYSTEM**

Regina has now in operation one of the most modern refuse disposal plants on the continent. All refuse collected from the city is hauled to a central transfer station, where it is loaded into steel dump cars. From the transfer station, which was specially constructed for this purpose at a cost of \$20,000, the refuse is transferred over the street railway to the incinerating plant at the disposal works, a distance of two and a half miles. The incinerating plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular.

### **STREET LIGHTING**

Nine hundred and twenty-five lamps light, 103.2 miles of streets and one mile of lanes.

For distribution of light and power to 14,423 consumers approximately 103 miles of pole line is required.

### **WATER WORKS SYSTEM**

The principal sources of supply are the Springs, artesian and pumped wells in the valley of Boggy Creek about 8 miles northeast of the City. A dam constructed across the Creek impounds about 100,000,000 gallons of water, forming an artificial lake which is now part of the Park System rather than part of the water supply system. Approximately 160 drillings have been made in connection with the construction and renewal of wells. In 1929 there were 68 flowing wells and 5 wells arranged, or being arranged for pumping to accelerate and increase the yield. All the wells yield a pure, sparkling water, somewhat hard, but of excellent potability.

The well water is collected in the Barton Pump well (270,000 gallons capacity) raised to the Tor Hill Reservoir by means of two 2,000,000 gallons per day Centrifugal Pumps, one directly connected to a 75 h.p. Electric Motor and the other to a 100 h.p. Electric Motor, or either pump can be driven by Oil Engines. Two of the pumped wells are being connected to Tor Hill Reservoir by direct pipe lines.

Tor Hill Reservoir is a circular reinforced concrete structure, has a capacity of 5,000,000 gallons and stands about 125 feet above the City level; it is 202 feet in diameter and the maximum depth of water is 25 feet. It is connected to the City Reservoir and Pumping Station by a 24 inch pipe line.

The spring water and the water from a 10-inch pumped well is conveyed by a 15-inch vitrified pipe to the compensating basin, and thence by 10-inch Cast Iron Main to the City Reservoir and Pumping Station.

The Compensating Basins have a capacity of 1,065,000 gallons.

The second source of supply is located at Mallory Springs, four miles east of Winnipeg Street and half a mile north of Dewdney Ave. This source was connected to the City in 1928 by an 18 inch pipe line. As originally developed the source consisted of flowing wells yielding

a little over 500,000 gallons daily. In 1929, there were constructed two concrete wells of 18 inch inside diameter. These wells are each equipped with pumps capable of delivering  $1\frac{1}{2}$  M.G.D. One unit is a standby in case of failure of the other.

The City Reservoir is located near the City Pumping Station. It is of reinforced concrete 250 feet long by 153 feet wide, 21 feet deep, capacity 5 million gallons.

At the City Pumping Station the equipment consists of two  $2\frac{1}{2}$  million gallon per day and two  $3\frac{1}{2}$  million gallon centrifugal pumps, both sets having parallel and series connections which enable them to deliver their capacity at 60 pounds pressure or half capacity at 120 pounds pressure. Prior to 1924, both sets were steam driven. For greater economy in operation, electric motors have been purchased and installed on both sets. To provide a standby in case of electric failure a new pumping unit has been added, consisting of two 3,300,-000 gallon per day centrifugal pumps.

The City water normally requires no purification, but the plant is equipped with a Wallace & Tiernan chlorinator. This can be used whenever the weekly examination by the Pathologist at General Hospital indicates the need.

### CEMETERIES

Regina City Cemetery, n.s. 4th Ave. near Hamilton.

### PARKS

The present area of land set aside for public park purposes is 257 acres. Wascana Park is the largest, being about 45 acres in extent. The value of this land with improvements is estimated at \$3,300,000.

**Alexander Park**—Generally known as Broad Street Park, is used as a children's playground, and is equipped with suitable apparatus. It is proposed to lay out several other playgrounds in different parts of the City in a similar manner, with a view to conforming as far as possible with the school curriculum of playground teaching.

**Broad Street Park**—Situated on the north side of Victoria Ave. between Osler and Broad Streets.

**Stanley Park**—Situated on the north side of South Railway St., facing the Union Depot, is laid out with walks, flower beds, trees, shrubs and lawns, and forms an appropriate setting for the station of the Canadian Pacific and Canadian National Railways.

**Victoria Park**—Situated on Lorne Street between Twelfth Ave. and Victoria Avenue, one block from the Post Office, in the heart of the City, has an area of over 7 acres. This park is laid out in an ornamental scheme, with a fountain in the centre, while trees, shrubbery and flowers are used to a good advantage in beautifying it.

**Osler Park**—Situated on the east side of Broad Street and Twelfth Avenue.

**Parkdale Park**—Situated on Queen North between Fourth Ave. and Chicago.

**Wascana Park**—Situated to the south of the City, has a frontage of a quarter of a mile along the Wascana Lake. This lake extends for nearly two miles east, and affords excellent facilities for boating, bathing and skating, of which full advantage is taken. A large boat Club building and boat livery are situated on the shores of the lake. A civic bathing house is maintained for the free use of the public. Some 35,000 men, women and children use the pool from June 1st to September 15th. A band stand occupies an appropriate position in the park and frequent band concerts are given. This park, adjoining as it does, the grounds of the Regina College, and being in full view of the lake and Parliament Buildings, offers ample opportunity for development.

No. 2—Park de Young, between 9th and 10th Avenues, Retallack Street and Robinson Street, is used for baseball.

No. 3—Block 255, between 9th and 10th Avenues, Robinson St. and Cameron Street, is used for football.

No. 4—Block 330, and a portion of 329, between Victoria Ave. West and South Railway Street, argyle Street and Princess Street. These grounds are available for baseball, football and tennis courts.

No. 5—Maple Leaf Park, south-east.

No. 6—Blocks 70 and 71, north-east.

**New Parks**—Since the last Manual was issued the City has acquired land for ten new parks and playgrounds. These are located in the North, East, South and West Sections of the City, to serve the needs of each community.

**Municipal Golf Courses**—An Eighteen Hole Golf Course has been laid out on the City property at Boggy Creek, with large sand greens and is known as the Tor Hill Golf Course. Boggy Creek. This course was opened in September 1930, and is now completed with all the latest improvements.

In addition to Tor Hill Course, another 18 hole course has been laid out according to plans submitted by Mrs. Stanley Thompson, Golf Course Architect of Toronto; no improvements will be carried out on this course during the year 1932.

## REGINA PUBLIC LIBRARY

1920 Lorne Street, Victoria Square

This occupies a fine building erected in 1911 through the generosity of the late Sir Andrew Carnegie, on Lorne Street, Victoria Park. The institution is thoroughly equipped in the most up-to-date manner, and is under the control and management of a board appointed by the city council. Branches have been established at: Albert Branch, 1401 Robinson N.; Eastview Branch, Wallace Street and Fourth Ave.; Prince of Wales Branch, corner Fourteenth Ave. and Broder Street; Connaught Branch, Elphinstone corner 13th Ave.

## EMMANUEL COLLEGE

### In Affiliation with the University of Saskatchewan

The College is governed by two bodies, a Statutory Council, composed of ex-officio and elected members. Its appointment is regulated by canon and the elected members retire by rotation. Also by a Board of Governors appointed by the Colonial and Continental Church Society of London, England. The Council grants standing in Theology, and the Board controls all matters affecting the welfare of the College, and the Proceedings of the College are reported annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides: (1) an associate course in Theology. (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate of Theology, and (4) a course leading to the Degree of Bachelor of Divinity.

After the new ones come out  
your advertisement in the di-  
rectory is still good, for old  
directories are seldom dis-  
carded while they hold to-  
gether. Years later many of  
these directories will still be  
in active use. Your advertise-  
ment is still in service
